New Jersey Police Chiefs Conference, Atlantic City, New Jersey (June 26-28,2017) 2

New Jersey Police Chiefs Conference, Atlantic City, New Jersey (June 26-28,2017)

Attendance = 400

AT&T Public Safety was in the program as a vendor and assigned a space at the expo. Their assigned space in the convention center was empty and I did not see any AT&T staff during the entire event.

Verizon was present and had a booth at the expo.

FirstNet was not present at the conference or expo.

No part of the training program was dedicated to technology.

I spoke with numerous chiefs and the executive directors of the chief's association. They are familiar with FirstNet and informed me that they have not had any contact regarding the network in over a year.

They informed me the last presenter AT&T provided talked very technically about the network and lost their attention.

Thus far, they have not been provided any information on the state plan.

I was unable to determine what direction the state of New Jersey is considering.
